

LETTER OF REFERENCE:
SHYLO NURSING:

To whom it may concern;

This letter of reference is being written on behalf of Shylo Nursing Group.

Shylo Nursing has been providing home nursing care for my adult parent for the past several years, they provide complete in home care, and service for all of my parents needs, including daily supervision, home cleaning, appointment scheduling, transportation and all other necessary needs as well as companionship for my parent.

With my personal unique situation being a US citizen and living a great distance away, I have had the privilege to meet and talk with in depth the owner of the company, Margot and I have had multiple, discussions about my parent's needs, care, and daily routines. Margot has provided me with a weekly update on my parent's condition and any pertinent information concerning her health, activities or her place of residence needs regardless of how small.

Shylo nursing has provided me with a sense of absolute care for my parent, knowing that she is well taken care of around the clock, 365 days a year, that her daily life and routines are met with compassion and understanding by the staff.

I would without hesitation recommend Shylo Nursing to anyone who finds themselves in the need of their particular services, knowing full well that they will provide the best possible care for a loved one.

Please feel free to contact me via Email at any time if you wish to discuss my reference at any time.

Sincerely;

Richard L. Snider Jr.
